

## ELEGANT SERIES

Every home in the  Elegant Series is a home anyone would be proud to live in. These are the most spacious single-family homes that we offer. If you need lots of ready-to-move-in living space, these homes should fill the need from 2400 sqft to 3568 sqft. Find yourself a lot in a neighborhood of distinction, put one of these homes on it, and you will be the envy of the community, not only because you have a lovely home but because you will generate a bundle of equity as soon as you move in. These homes have got it all but, as with all of our homes, if you have special requirements, we will find a way to meet your needs.

If you don't need a lot of space but want a distinctive look, check the VALLEYVIEW out below and, if the VALLEYVIEW isn't large enough, browse through the many other Elegant-Series floor plans on the following pages.

If you want a home of distinction,  has it.
